

THERE IS A DIFFERENCE

**Dry Stretch fabric  
The Technical Range**

**(DL900, DL901, DL902, DL903, DL904, DL908,  
DL909, DL911)**

Fabric Construction: 92% Nylon, 8% Elastane

By drawing moisture away from the body the skort keeps you feeling dry, cool and comfortable. The fabric is also easy to care for.

WASHING

- **Wash at 40°C.** Higher temperatures may cause shrinkage, affect the colour or weaken the fibres. Wash dark colours separately. Avoid strong fabric conditioners as they can break the fibres

IRONING

- There is no need to iron the Skort. If necessary use a cool iron through a damp cloth.

DRYING

- This fabric can be tumble dried on a low heat for a short time, although it's not recommended.
